INTERPRETATION OF QUALIFICATIONS.

Kindly note that I have tried to give myself the best literary training possible in order that I may give the best to my students; therefore, I chose Columbia University and continued my study there until I received two Degrees and the required number of Residence Credits for the Doctor's Degree. It seems to me that the one hundred and fifteen semester hours of training in English indicates that I have spared neither time nor money to prepare myself to teach my Major Subject, and my study is extensive as well as intensive. I feel that my training has prepared me to make Literature a vivid, living reality to the minds of the students and show them that great Literature is not an out-of-date subject that belongs to the Stone Age; but that it is alive today and cannot be neglected by the students without seriously handicapping them in their daily life. Since I have walked and talked with the great writers writers of Literature for a number of year, I can speak of them in the class room with the joy and appreciation with which we recall

our pleasing experiences with intimate friends during conversation. This familiar knowledge and association on the part of the instructor should give the students the vivid impression that these great authors are desirable friends to know and therefore the students will become eager to read and study their works. Generally if the Instructor is interested in his subject and expects to make teaching his life profession, he conveys his enthusiasm to his or her students then students get interested and the ideas of discipline and misconduct are forgotten by the student.

I have made special preparation to teach Shakespeare's Plays as well as Drama in general. You will observe that I Shakespeare's plays each year I attended High School. I took in College and Graduate work two courses in the study of Shakespeare's Plays as well as acted in his "Merchant of Venice" in College. Moreover, I saw his outstanding plays acted on Broadway New York City by such leading stars as Walter Hampton, John Barrymore, Ethel Barrymore, Jean Eagles, et cetera. This study and observation has given me the power to throw light on these great Dramas and thus assist the students to an appreciation of Shakespeare's extraordinary ability as a dramatist, as well as to point out to them Shakespeare's exceptional power in constructing plots and creating living characters.

As the first part of my letter indicates, my special fields of study in English Literature are Shakespeare, Milton, or Seventeenth Century Literature, Eighteenth Century Literature, Romantic Movement, Nineteenth Century Literature and Modern Literature. Kindly note that practically all the masterpieces of English Literature that are studied in the High School fall chronologically within these periods. I have had the pleasure of attending the classes of perhaps the best teachers in America and seeing them demonstrate by example the best methods of teaching these English Classics or Masterpieces of Literature. This statement applies to all of my training including American Literature.

My training in English Composition should be adequate for teaching in your High School. Besides the practical experience of writing for two courses, I was fortunate in being able to take Dr. Baldwin's course in Methods of Teaching College Composition. Actual themes from the leading colleges, such as Harvard, University of Wisconsin, Columbia, et cetera were collected and analyzed in the class room. I should be qualified to assist the exceptionally apt students to a fuller development of his powers. The observation of the New Method of teaching Freshmen English at Barnard College offered many valuable suggestions that I shall be able to apply in a less advanced degree in my High School English Composition. The courses observed in Hunter College New York

City presented new ideas in ways of teaching English Composition.

Among my courses in Education, the Graduate Courses in Methods of Teaching English in the High School offered very valuable helps. This course illustrated in detail the best methods of presenting the different great classics, modern Literature and English Composition in order to gain the most desirable results. The theory combined with the practical application in the class room added to the observation of teaching in the Best High Schools of New York City has prepared me to apply the best and most up-to-date methods in Guyana High School; and therefore the students of that High School the advantage of the best methods now used in the United States.

It seems to me that this course combined with my other courses in the field of Education have covered the necessary information for Teaching English. The course in Educational Problems that was taken at Juniata College, gave me knowledge of the adolescent in High School, with his or her special problems of physical and mental adjustments and changes as well as many other problems of school, of community, of parents, of teachers and of patrons. This was an exceptionally valuable course to an Instructor, for it emphasized facts that will help her to cooperate with parents, patrons, students and other teachers and therefore keep harmony in the school. Educational Psychology, a course that was taken at Barnard College under Dr. Gates of Teachers College was a most worthwhile course, including Intelligence Tests, etc.

The course in Psychology that was taken as background work for my courses in Education was exceptionally fine. Since that time I had read such modern Psychologists as Freud, Jung, Adler, Robinson, Coe etc. I also had the interesting experience of attending Dr. Adler's Lectures at Columbia University, while he was visiting America.

I wish to offer my training in Public Speaking and Expression as special qualifications for teaching as well as assisting in extra-curricular activities. Practice and Theory in public speaking have gone hand in hand since I was five years of age. This gradual development in the art of Expression combined with the two-year course in Public Speaking has qualified me to assist the student to an appreciation of great Literature by reading in the class room obscure passages with correct emphasis, clear enunciation, proper inflection of voice, cadence, tone color, etc. I can offer suggestions that will help the students to produce more beauty and clarity in their class reports. If there are students who are interested in public recitals, literary society work, contest,

I can offer suggestion, for I have had experience and training in all of these extra- curricula activities.

For References as to my training, I wish to direct you to Miss I.L. Pratt, Bureau of Educational Service, Teachers College, Columbia University, New York City. At your request she will be pleased to send you more data concerning me, as well as Reference Letters which she has on file from my Columbia Professors and Teachers. My dear Sir:

Your letter of the 27th., ultimo., with reference to the qualifications of Miss Katie Kinzie of Troutville. Miss Kinzie has never taught for me, but I know her and I have known her family for many years.

Of course, you have a transcript of her academic and professional training. I need not refer to this.

Her character is strictly christian, and beyond every reproach. You will find her always discreet, and one who exercises very discriminating judgment. I know of no peculiarities or habits possessed by her which can interfere with her success as a teacher. On the other hand her habits and personal traits are such as will conduce success.

Miss Kinzie's personality is cultured and refined. Her manners are pleasing and popular. Her family background is excellent. I do not hesitate in stating that you may rate her an "A" prospect.

Yours very truly,

My dear Mr. Lambert:

Miss Inez Kathryn Kinzie of Troutville, Virginia, graduated from Daleville College which has since been consolidated with Bridgewater College before my connection with the institution. I therefore did not know her as a student, but I have known her family for a good many years. At least one of her sisters has graduated with us and we found her to be a delightful woman. I have known of Miss Inez for six or eight years and formed her personal acquaintance about two years ago. Her record with us in college was very satisfactory both as a student and as a woman. So far as I know, she is a woman of the highest character and she certainly has had every advantage from the standpoint of training. I think she has no habits which would in any way interfere with her success as a teacher. She is a woman who is neat and attractive in appearance and is dignified in her manner. It is my judgment that she would make you a very satisfactory teacher although I do not know her intimately.

With very best wishes, I am

Sincerely yours,

Dear Mr. Lambert,-

Pardon my delay in answering your letter of the 27th of August about Miss Inez Katharine Kinzie. I am sorry that I can tell you almost nothing about her, and at this distance from the records, I can hardly place her at all. In the graduate work, as I recall it, that she took under me, I merely lectured and no attendance was required. Consequently I seldom came to know any students at all well, and since there were no examinations in the course, I really have no knowledge of her mind or personality. But I should be even more sorry if these non-committal remarks were any reflection whatever on Miss Kinzie.

Dear Sir: -

your letter came to me while I was away from home, hence the delay.

As a student, Miss Kinzie, had the urge that led her to secure high grades. Her persistence in her own education would suggest the same spirit in her attempts to teach. She has always lived above reproach in every way and will be entirely satisfactory in that respect.

She shows some inclination toward being alone and is inclined to insist on her opinions merely because of her own scholastic attainments. It is likely that actual experience in teaching and every day contact with the public will soon remedy this disposition.

I am,

yours very sincerely,

My dear Superintendent Lambert:

Among my other qualifications to teach English in Guyan Valley High School, I wish to call your attention to the fact that I passed several years in New York City. President Nicholas Murray Butler once said that for a student to live four years in New York City was a liberal education although the individual never entered a class room during that period. It seems to me that this statement is correct. The Metropolitan Museum of Art, The Museum of Natural History, Grand Opera, Great Plays, the heaven-reaching towers everywhere in New York City et cetera, all contribute to an appreciation of life and therefore, to an appreciation of Literature. Hours must be spent with great art in order to fully appreciate it and to gain lasting value from it. A tour through that immense City in a few days or weeks will not suffice, for great art like great books must become our daily companions over a long period of time, if we are to understand it and appreciate it. Therefore, I am pleased to offer the years spent in New York City with its broadening experiences on every hand as a qualification for teaching English in Guyan Valley High School, Branchland, West Virginia.

Kindly note that I have spared neither time nor money in giving myself the best literary training possible in order that I may give the best and most worthwhile training for life.

I shall appreciate a letter from you.

Most respectfully yours,
Inez Katharine Kinzie

conferred with Mr. F.D.Dove who is professor of psychology in

Daleville College was not offering any work in educational psy-

Dear Sir

In your letter of November 5 you ask that I send you more explicit information about the four English courses for which Miss Kinzie wishes to receive recognition in connection with her application for a permanent certificate. In the first place I send you herewith an official transcript of her record under the Graduate Faculties where she received the degree of Master of Arts in December, 1929. Of the courses mentioned in your letter the following were taken at Columbia University:

English e203 - Summer Session 1922 - The college teaching of composition, surveys the college (not the secondary school) field and the typical methods of courses.

English A2R - Composition . This course is generally prescribed for freshmen and is a prerequisite for many courses in English offered at Barnard College.

As to the other courses indicated in your letter as having been taken at Hunter College, may I suggest that you obtain an official statement from the Registrar of that institution? I am asking the Registrar of Barnard College to send you a transcript of Miss Kinzie's undergraduate record. Two copies of this letter are enclosed for your use.

If I can be of further assistance to you in the matter please let me know.

Dear Mrs. Rowsey; -

The former Miss Ruth Cook, now Mrs. Jones told me she had a letter from you telling where Miss Dorcas Loveless now lives, but I wrote to the address she gave, but my letter was returned.

Will you please give me her address, and state how long ago it was when you heard from her? I hope you and Stanard are well.

Very truly,

F. B. Lambert.

I want to write the history of the school, and need this information at once. Did you know any of the earlier teachers?

Very truly,

F. B. Lambert.

Dear Mr. Lambert -

I heard from Dorcas a few days after Christmas 1957.

I don't know where any of the other teachers are, except John Leonard, and I understand you have heard from him. Dorcas lives in Phoenix, Arizona.

Her address is

Miss Dorcas Schamenbach

Mr. F. B. Lambert.

Dear Mr. Lambert:

I got your letter, and am sorry to hear of the loss of your eye.

I got sick Christmas night, and did not know anything until next evening, when I regained consciousness.

My children and friends were crowding around me in the hospital. I was in Cabell Hospital six days, and then came home, and am just now getting able to walk through the house.

The High School teachers were Mrs. Lovelace, Mrs. Kinsey, Miss Campbell, and Sister. Miss Benson from, I think Minnesota.

I can't name the boys from up in the state. I've forgotten several more that taught here. You recall what a time we had. We bought the first School bus in the State.

And we went to Charleston for a levy for a School Building fund and got several things at our own expense; and spent our time and money which is no more mentioned, no credit for any thing.

The H. U. High School has been worth millions of dollars to our County.

I can name six young men
from here working for the F.B.I.
and they turn out graduates that
are a proud bunch ready for
any College almost anywhere.

I wish you the best of health.

I am your friend.

Dear Charley: ~ I have been confined for quite a while with an inflamed eye, and had my right eye removed Friday, at a final cost of \$250, hence, have been unable to either write you, or send your valise, but now I think it will be on the way. It can not be sent C.O.D., and I will not know the cost until I can get it sent to the station which may be to-day.

INEZ KATHARINE KINZIE

This is to certify that Miss Kinzie did her college work with us at Daleville College, an institution which was recently consolidated with Bridgewater College. I find that her record, both in our academy as well as in the college work, was very creditable in every way. We found her to be a student of more than average ability, and she was held in high esteem by both her fellow students and members of the faculty. Miss Kinzie's character record with us was highly commendable. She comes from one of our best Birginia families, and we have every reason to believe that she would be a strong intellectual and moral asset in any school system. I shall be glad to answer any specific inquiries with reference to her.

What Vocation Shall I Choose?

By Charles Ellison

Principal, School of Advertising, International Correspondence Schools.

The Opportunity in Advertising

Wider distribution of the products which our factories can turn out in almost unlimited quantities is generally admitted to be the chief problem of the age. With equal unanimity advertising is admitted to be one of the chief aids to wider distribution. It cuts costs by permitting mass production; it widens demand by creating new desires. There is every reason to believe advertising will offer even greater opportunities in the future than it has in the past.

What is the most important qualification which the young man must possess to succeed in advertising? Not literary ability, as many believe, but rather the ability to devise effective plans for the marketing and advertising of the product, and to analyze the product and the prospective customers' wants so as to discover how the most effective appeal can be made. This is no inborn ability. It comes as a result of close study of modern merchandising methods.

How can the young man best break into the ranks of advertising? Hundreds of firms have their advertising departments where practically all types of office workers are required. Working of all kinds—over-the-counter, house-to-house and closing the contract for construction of an ocean liner—is closely allied to advertising. Any number of men have traveled

Shakespearean Players Present "Macbeth" Nov. 14

The New Yorkers Club of Huntington High School presented James Hendrickson and Claire Bruce and their Shakespearean players in "Macbeth" November 14 in the Huntington High School Auditorium.

This company is recognized as one of the foremost interpreters of Shakespeare, this was the second appearance they've made in Huntington. The Principal parts of the cast were played by Mr. Hendrickson, Miss Bruce, Allen Nogle, and James Rach.

Over fifty students and teachers from Milton High, attended the play. Cars were furnished at the small charge of fifteen cents per each student.

The Senior English classes are now studying the works of Shakespeare and the play "Macbeth" is being read.

CLUB ORGANIZED

Enrollment Of
School

Olin C. Nutter, assistant superintendent of schools, has compiled figures on the enrollment in Milton high school each year since its organization. The marked increase in 1924-1925 is accounted for by the fact that the junior high school idea was introduced here at that time. The figures are as follows:

1915-1916	35
1916-1917	39
1917-1918	35
1918-1919	32
1919-1920	33
1920-1921	41
1921-1922	70
1922-1923	66
1923-1924	64
1924-1925	140
1925-1926	160
1926-1927	164
1927-1928	101
1928-1929	24
1929-1930	261
1930-1931	276
1931-1932	30
1932-1933	345
1933-1934	396
1934	410

ATTENDANCE FALLS
FOR SECOND MONTH

Enrollment for the second month is 405, a gain of two over the first month.

Average daily attendance fell the second month, being, for boys 180.45; girls, 194.1, making total for the average daily attendance 374.5.

Percentage of attendance is 92.4 per cent.

274 had perfect attendance record last month and Mr. Stover's secretary of the Senior had the best attendance with 98.7%.

Dear Mr. Lambert:

Glad to hear from you and that you are well.

Robert Scott teaches at the Hunbar High School - and manages the Price Movie show - in the evenings - at Hunbar - Scott was from Elkins, W. Va he graduated from Davis & Elkins College. While Scott was staying at my home in Branchland & I brought him to Ashland and he married my wifes' sister and they had a nice girl who is now in College. His wife died several years ago. He gets his mail in Charleston P. O. Box 1802.

I have lost track of the rest of the gang. Miss Loveless - I have not heard from her in years.

Do you remember Clarence Ray?
He is in Huntington some where.

Ira Kial was teaching in
a military school some where
in Tenn - the last time I
heard from him.

Lelia Morris, I have never
heard from her.

I often think of my Guyan
Valley days and they were some
of the best days of my life -
full of good experiences.

Do you recall our 1st Football
game when we dedicated the
field and you threw out the
1st ball. We beat Hamlin
that day and we had a green
team, some of the boys had
never seen a game before, until
they played - Elvin Watts was
one of the boys.

I will come to Barboursville
some Sunday - and we can
talk a lot.

Best wishes

GUYAN VALLEY HIGH SCHOOL

(By F. B. Lambert)

SHERIDAN DISTRICT JUNIOR HIGH SCHOOL

The time to make records is when they occur. This school is the outgrowth of an agitation for a high school in that District about a year ago. I introduced a bill in the Legislature or rather I drew it up for a County high school and Homer Stiles introduced it but later defeated it for propaganda purposes. He wrote Letters in the local papers from Charleston inviting criticisms from home. After the bill was lost in the Legislature, the people of Sheridan and Laurel Hill got together and introduced a bill for a joint high school in the Legislature. This bill was a mere change of names of my bill. I assisted in getting it through the Legislature. or rather the Senate but Stiles killed it in the house and wrote letters again to the Hamlin papers attacking the motives of some of whom were Roy (?) Adkins. Mrs. Flora Midkiff and Greeley Isaacs. The matter of a Sheridan District high school was voted on and came within sixty votes of carrying. Later it was again put to a vote but was defeated with a still larger majority.

Aug. 31, 1926. -- I finished my work at Hamlin about three weeks ago. Our summer school extended from June 7 to about Aug. 6, 1926. - 58 pupils enrolled. Stiles and Guy assistants. I left Hamlin expecting to teach a country school at home but Greeley Isaacs, President of the Board, met me in Hamlin and suggested I take charge of their Junior High School: I told him I would study over it as I didn't want to go into any more unpleasant propositions. I then decided to go over the District and make a survey. Since that time I have visited almost every school in

the district and have talked with many people and have also gone up the river and visited the Midkiff and Ranger schools of Laurel Hill, ~~schools~~. At Midkiff, I found 100 pupils with Mrs. Flora Midkiff, Principal. I visited that region to - day. Mrs. Midkiff and Mr. Parsons of the Ranger school both said they would give us every moral support. Incidentally I found that the road from West Hamlin to Ranger is one of the finest in many miles. It is almost a level grade for miles. On the whole I was impressed with the fact that there is an abundant of material to support a high school - much more so than at Hamlin. Several weeks ago, I prepared an article in the form of question and answers with some tables. This article gave the reasons why the District needs a high school. It was first intended to be signed by the Board, but I have later decided it may be better to have Rufus P. Lambert sign it as County Superintendent. This will probably be illustrated and printed. Last week Robert Butcher took me to the "Two Mile School" and the two schools on Fall Creek. Mr. Bias drove me to several, another day. Today I went with Mr. Isaacs to One Mile and returned to Hamlin.

Sept. 1 - Rufus Lambert drove me most of the day today. We visited the Long Branch School and then passed over to Upper Madison. Took dinner at Clifton Bias's. Discussed the matter of tuition from McComas.

He went with me to Kenney Adkins where we came to an understanding that we would reduce our tuitions to \$5 and the Board would assist the students on transportation. We drove back past Clifton Bias's and on over to Madison and down Madison. I visited the Upper Madison Creek School in the morning and tried to find the Lower one on our way down, but missed it. We visited Coffmans near Salt Rock and went back to Lucian Adkins' and

there returned to the Salt Rock Station. Bob Butcher was on his way to Huntington but returned with me past my home.

I am undertaking this work because I believe it is going to prove a big step forward in the educational advancement of this section. In fact I believe it will prove the most fruitful of any for many miles. School is to open Monday morning September 6 and I believe will prove the biggest day in the lives of these boys and girls.

Sept. 4th, 1926 - I spent the last two or three days in Huntington working with the architect and getting out mimeographed circulars boosting the school.

The Board met at three o'clock today and practically employed Mr. L. J. Dean as architect. They passed an order employing him conditioned on a legal contract drawn by an attorney representing the Board.

One of the Isaacs boys (red-headed) drove me home in the afternoon because I wanted to drive up with the new school bus.. It came along about 2 o'clock. A group of Children from West Hamlin came to Salt Rock. We drove over to Salt Rock and back through West Hamlin where we collected a load which was added to, up the road. I left the bus at Branchland and went with Mr. Isaacs to the Board meeting at Sheridan. The bus went on to Ranger loaded with about 30-35 pupils and friends.

The circular referred to above, stated that to-morrow (I am writing on Sunday) would be the biggest day in the educational history of the Guyandotte Valley.

August 14th, 1927 - Today is Sunday - The last week has been exceedingly busy and exciting for me. About a week ago I went up to Charleston and over to Hamlin and got the **figures** on the Columbia Gas Company's valuations. These I presented to the County Court and they proportioned them ~~entirely~~

) differently from what they were. Carroll District had the lion's share of what had for several years been allotted to Sheridan. The change created a lot of excitement on the Board of Education at Hamlin and Cales McGhee of the court went hog wild. He insisted on going to Charleston and the court consented. I phoned ahead from St. Albans to Judge Simms. When we got there, the whole crowd went to the office of the Tax Commissioner for a hearing. Judge Simms (who by the way is the Attorney for my Board) confidentially, by my arrangement - played his part beautifully. Homer Stiles and Young Morris (Attorney-son of Fred Morris) the two Hamlin Board members and the court. I, Greeley Isaacs and Cesco Isaacs represented our Board. We had a hot time. The Tax Commissioners insisted that the law put the duty of apportionment on the County Court.

Young Morris asked for copies of Columbia Gas returns for 1925 and 1926 and several of us did likewise.

I understand the matter is going to be brought before the Court tomorrow again, and Sherman Isaacs told me yesterday evening - Sept. 13th, confidentially that he understood that some one had threatened to beat me up tomorrow if I showed up at Hamlin. However, I showed up and the court ruled in favor of a proper apportionment.

I think it was the next day, I was informed by Mr. Greeley Isaacs that the ^{Board} ~~court~~ had decided to go to Charleston and consult the Tax Commissioner. They did so, and Mr. Isaacs and I drove ahead of them and beat them there. When we met Judge Simms and the Tax Commissioner, ^{we} met with the court and there was a warm discussion. The Tax Com and Judge Simms informed them that they had interpreted the law as giving the County Court the right to make the apportionment any ^{way} its judgment might dictate. The court went away

without saying anything. I got Isaacs and Parsons to come back to Judge Simm's office for a conference, but they were slightly cold and non-committal. I suggested they employ Simms as attorney, but got no response from Parsons.

The next day or so I had Judge Simms call Hamlin (Co. Clerk) and we soon learned that the Court had reversed itself. Mr. Isaacs and I started for Hamlin with the result that we found a dark night had completely changed affairs and we were lost. It all goes in the company you keep.

Nov. 23, 1927 - Landes Construction Co. quit Oct. 14, 1927, demanding the Board sign an estimate for \$13,000 / on next years funds. The President refused to sign, and I advised him to stand pat. Recently they served notice on the Board that they would sue Nov. 21st if Board did not act favorably.

The Board refused and served notice on them to show cause why they should not be considered as having breached their contract. This is to be considered Nov. 28th at 10 A.M.

Dec. 31, 1927 *The* Board met today at ^{the} H. S.

Judge Simms, D. B. Dawson, ~~Mr.~~ ^{and I} Mr. Isaacs and Mr. Messinger ^{and I} Present. Mr. Hutchinson deliberately went hunting and refused to attend. About 1 o'clock, Rufus Lambert and I went up to his house. It was raining. He came across ^{the} hill with Ray and Jennings Midkiff. We tried to get him to come, but he refused. He said Greely Isaacs was ~~doing~~ all this. He agreed he would meet to invalidate the contract. It looks like something has gone wrong. This thing has been hanging ⁱⁿ fire since they quit work (Oct. 14th. I think) Another meeting was scheduled for the next Saturday but nothing came of it.

Jan. 7, 1928 - (Jan. 7? Saturday) Board was to meet but did not. I telephoned Judge Simms at his residence. He said he was sick. He has

been sick ever since and nothing has been done to date.

Feb. 5, 1928. Suttler came over two and a half hours late, went to Mr.

I's who called to Mr. Messinger to come over as Suttler was sick and couldn't come to school building. Mr. Messinger refused and rather gussed it was an attempt at bribery. Mr. Hutchinson was ready to come but couldn't do so because of a breakdown.

June 30, 1928 - We have been in a compromise^{ing} proposition with Landes Co. for a week or two. Greeley I. is agent for the Company. I recommended no compromise. He came to me on Thursday before compromise was offered about two weeks ago and threatened to throw me out of the school if I didn't lay down and permit him to get a compromise. I told him I refused. He also threatened to enjoin the payment of salaries for summer school.

The Architect is now revising the specifications. They have agreed to write^a new contract, specifications, and give^a new bond. I expect them to, through Isma's influence to skin the job after they get on it. They have not hesitated to use bribery or anything else to accomplish their ends.

July 24, 1928, Tuesday - Landes Const. Co. started work again. He had a new Supt. They moved the office building to the rear of the school first and then cleaned up. He used four or five men each day first week. Mostly as laborers. Suttler told me they paid 10¢ an hour. The cement stored in under office room - about 60 sacks or 15 barrels was hard. They claimed to have thrown it away. It took two men about 2 days to cut off cement blocks in front of Unit 2 - from footers, caused by ^{the} former supt's mistake.

Aug. 14, - The contractors and Riley Johnson came in and bull-dozed the Board into changing the extra heavy cast iron pipe to ordinary sewer pipe, let him off from building septic tank for \$200, accepted the coal holes

without as previously agreed. The Architect sided with them. He told the Board it was the proper thing to do. In my judgment, it was the most outrageous steal to date. The Board accepted Johnson's word on prices. Nothing was said about cost of installation.

Nov. 17, 1928 - The Architect was on the Job. Recommended the electric wiring dispute be deferred till after the work is put in. The contractors (both Suttler and Landes) said were responsible for 15000 watts of power but hinted that came through Dunkle and ^{that} we could later get a fair price by arbitration by 3 electricians. A scheme to beat the Board out of a 10,000 Watt Kohler plant - the Architect seems to be working with them. The Architect said he expected to stand for Kliege footlights and borders.

Dec. 25, 1928 - Had a Board meeting last Saturday. Dec. 22. A man came from Chapmansville saying he was sent there by O. K. Hutchinson to apply for the Principalship. He stated his wife was capable of handling the music. In view of the fact I have one of the finest music teachers in the State (Thelma A. Riggs) this is pure bunk. The fact is Hutchinson is guilty of all kinds of law violation, and don't want me to be on the job to head it off - F. B. L. Apparently, he got slight consideration.

Dec, 25 - 1928 - Nathan Burne came here from

March 23, 1929 - Friday - The high school board met today. All members present. The West Va. Seating Co. had been to see most members of the Board to sell furniture and were present with John Hustle whom they were openly supporting for Principal. He was Principal of one of the Guyandotte List. Jr. Highs (?) and has just been replaced by another man. It was the most disgraceful circumstance, I ever saw at ^a Board meeting. I wired for J. W. Lively of the Virginia Co. to come and he got in about 1 o'clock.

Hutchinson and Toppings went to see Jacob D. Smith to get copies of the law. They did not ask me. The Laurel Hill Board and Milton Ferrell seemed to be for me but Matthew Farley had switched. One of the W. Va. Seating men told Ferrell that Farley had been for me but a little money would do wonders. Since the new bill tries to validate all previous contracts, I wonder what the result will be. Greely Isaac told me Saturday that one of his sons was getting 10% on the deal. I knew almost he was head of it. I had tried to secretly send out the notices, but the W. Va. Seating crowd got wind of it almost at once and came up even before some of the members received their notices. The Landes Co. - came in a great hurry last Thursday week and urged the Board to make final decisions on certain items, and allow extras on wiring etc. as they expected to be financed by their bond (who was present by one who claimed to be their representative.).

The building has been dead as a door nail since. Even Lewis (their Supt) has not been here all week. I consider it another trick to gain time, and everything indicates the Board has a private understanding with them. The school has been crowded like sheep all winter. It is positively disgraceful. I am wearing down fast. The Board began to arrive about 10 o'clock and carecused around all morning, then went to the restaurant for lunch, notwithstanding, I had dinner prepared in the cafeteria. I acted as Sec.pro-tem. Jeff Lucas as Pres. Pro-tem. Matthew Farley was elected Pres. and Kyle Toppings, Secretary. It seems Rufus P. Lambert traded me off for a chance for a position for himself. The W. Va. Seating Co. were busy all day opposing me and lining up their forces for seat orders.

Saturday evening Greely suggested \$300 properly placed would land me

the job for 3 yrs. He said a certain member was open at any time.

Sept. 8, 1929 - The high school board met again today. There was a rather stormy time. Some of the members (Geo. Messinger, Matthew Farley especially) had at the last meeting led a fight to reject my nomination for a librarian and a home economics teacher. I had nominated Dorothy M. Boelmer of New York State for librarian and a Miss Wheeler of Ashland for home economics teacher. Miss Wheeler was elected today but I had to fight it hard. I gave a talk emphasizing the fact that well was not installed according to specifications, and no sewer or water connections in the basement no foot-lights, borderlights, or other things. I made it pretty warm but Miss Boelmer had wired me a day or two before she would not accept as she had received a place near home. I asked for a committee to confer with me on above and minor items like connecting up the gas, getting chalk, brooms, toilet paper, etc. They were afraid of the proposition but it left me free to do as I liked.

GUYAN VALLEY HIGH SCHOOL? WHEN COMPLETED? WILL BE FINEST RURAL SCHOOL IN THE STATE

History of Building, Now Being Built Between West Hamlin and Logan, Reads Like Romance; Will Be Community Center.

BY F. B. LAMBERT

Those who travel up the Guyandotte valley, whether by train or by automobile over the new state road from Huntington to Logan, will see a large school building under construction between West Hamlin and Branchland. This school is located in a broad valley, there being but few houses in the neighborhood. It is being built by annual levies without a bond issue. One wing is already completed and in use; while a second unit is under construction. The plans are made for four other units. When properly finished, the building will be the finest and most outstanding rural school ever erected in West Virginia.

Its history reads almost like romance. A number of citizens have been trying for years to establish a high school in Sheridan district. At least five special elections have been held in an effort to legalize it, but each of them failed to receive the proper majority. It seemed that the location was the principal stumbling block.

Branchland Selected

Branchland was the place first selected. The question was brought to a vote five or six years ago, but the people of the lower end of the district defeated it in two successive elections. The friends of the school decided to call a new election with West Hamlin as the location, but again the proposal was defeated. Then there was a lull until May, 1925, when another election was called for the present location, but again it failed by a small margin. A month later a final vote was taken with the same result. By this time, some of the pessimistic folk were beginning to think that the election method might prove a failure.

The board of education consisted of Greeley Isaacs, president; T. B. Snodgrass and Wilburn Fry, commissioners, and Mrs. Vina Snodgrass, secretary. All were active in trying to put over the school, and they were not the type of folk to be discouraged.

The board of education was firmly convinced that a high school was an absolute necessity, so they proceeded to buy a tract of land for a

campus. They very wisely chose a different location--a point about the middle of the district, on a fine bottom at Pleasant View, between West Hamlin and Branchland. Here, in September, 1925, they secured 26 building lots for a campus and athletic field. They have since added 8 more.

In the meantime, a strong effort had been made to pass a special act in the legislature of 1925, to establish a county high school at Hamlin. This was assailed from within and without and died.

Another Effort Fails

A little later the people of the river districts decided to make a legislative effort, by salvaging the remains of the county high school bill, and uniting Sheridan, Hart's Creek and Laurel Hill districts, in a joint district high school bill. But the same fate befell that proposal.

Another era of peace ensued until levying time, 1926, when the board decided to establish a junior high school at Branchland. The principal ship of the new school was offered to the present principal of Guyan Valley high school--F. B. Lambert. He asked for an opportunity to make a survey of the territory, and, in the latter part of August, hired a taxi and visited many of the country and village schools from the Cabell County to the Logan county line. He brought back the report that students were plentiful.

In the meantime a section of the state road known as route No. 10 had been advertised from West Hamlin to the vicinity of Midkiff. This extended entirely through Sheridan district and made it certain that transportation by bus or otherwise would be perfectly feasible. This was an important step.

The school was opened September 6, 1926, in the old building at Branchland. The board purchased a Reo school bus--"Sheridan school bus No. 1"--and chose "Chalk" McComas as driver. He has since passed into the great beyond.

The air was full of doubts. People said that there were "no students and that what students there were wouldn't stay. The roads were too muddy. The state road would never be built."

Had One Assistant

Mr. Lambert at first had as his only assistant Miss Fern Harless. One by one pupils ventured in until before a week had passed it was evident that another teacher would be necessary and the principal was authorized to employ one.

He accordingly wired for Miss Ethel Comblum and she has been there ever since. She and Miss Harless taught all day and pounded the typewriter morning, noon and night. Hundreds of personal letters and thousands of mimeograph circulars were sent throughout the territory.

The enrollment gradually rose to nearly a hundred. Then came cold weather. Pupils were snow-bound and mud-bound. The enrollment dropped. The bus could no longer make the trip from West Hamlin, but the majority of the pupils continued to come. A few waded the mud all winter for distances of two to four miles, but the doubters never ceased to doubt.

They said all would be over by Christmas.

The year closed with about 65 of the "regulars" who managed to get there by walking, or by train.

Much of the principal's time was taken in visiting schools, writing letters, and pleading with the pupils and patrons to have "faith, hope and charity".

Sentiment gradually changed from hostility to friendliness. The fact is, the people were never against the school, but were victims of prejudice and strife engendered by misunderstandings, and by the playing of one section or group against another.

Enrollment increases

The board planned for a junior high school building to be built in such a way as to be easily converted into a senior high school. The first unit was completed about the time of the 1927 legislature. A bill was prepared, authorizing a three-year levy to complete the new high school. The plans were changed in such a manner as to enlarge the building as well as to make it possible to construct it by units. The second unit is now being built, and if properly completed, will be a magnificent structure and a genuine land mark for the Guyandotte valley. School is now being conducted in unit number one, and the enrollment is vastly greater than last year. Four bus loads of students are brought up each morning.

The construction of unit number two was recently stopped; but the board has employed Walter F. Martens as supervising architect to see that the job is properly completed.

Mr. Martens is well known in this and other states. He built the governor's mansion and has specialized in school buildings of this type.

Sheridan district junior high school is now the Guyan Valley high school, a fitting name for an institution drawing students from all the river districts ^{and} from McComas District of Cabell County to the Logan County line.

Faculty Doubled

The faculty has been doubled since last year. In addition to the principal, it now consists of the following: Miss Ethel Emblyn, Miss Signe A. Benson, Miss Teresina Marino, Ralph A. Baber and Miss Elizabeth Campbell

These teachers have nearly all done master's work in addition to the regular college degrees. Among them are graduates of West Virginia University, Pittsburgh and Washington & Jefferson.

Recently the people of Sheridan District have voted on a bond issue to build better roads connecting the creeks and hollows to the main state road. This bond issue is under contest but the chances are apparently in its favor. Should it stand, as now appears probable, it will be among the last of the long battles in Sheridan District for progress and for the school. It might be said in passing, that these fights have usually been good-natured, as the hill folks enjoy a little scrap now and then.

Another important step is the Sheridan Bridge across the Guyandotte. This will be finished in a few weeks.

When completed, the building will have 30 or more class rooms, and half as many basement rooms. It will have a gymnasium, unique for this section--a western idea. It is a stage 80 feet wide and 40 feet deep, with 65 or 70 feet of foot lights. Eighty feet of folding doors will serve to make a state of any desired width. The auditorium will seat about 800 people. There will also be a balcony. The class rooms are to be built around the gym-auditorium, thus assuring first-class light. The gymnasium and auditorium are to be ventilated and lighted by skylights.

All Conveniences

The school will have every modern convenience. Gas comes from a high pressure line across the Guyandotte. Water will be furnished from a bored well on an elevation about 600 feet away, and will be brought into the building under air pressure. Heat will be furnished by large gas furnaces and distributed by a fan system, thus giving ventilation as well. There will be modern toilets and showers. Sewage will be carried to the river.

There will be ample storage rooms, a library, and laboratories for the sciences and home economics. The course of study will be based on the one prepared by the state board of education, but adapted to local needs.

The equipment will be the best that money can buy. There will be a piano to provide music for entertainments and school choruses.

This school will be a community center in every sense of the word. There is not another building worthy of the name in all the river valley from Barboursville to Logan. It is a real successor to the one room country school, which, excepting a few small buildings in the towns, is the only type known in the territory.

The new president of the board is O. K. Hutchinson. Mrs. Cora Midkiff is secretary, and George Messinger is commissioner. All are doing everything in their power for the welfare of the school. They are very busy people, but give of their time in full measure. Many other citizens in Sheridan, Laurel Hill, and Hart's Creek districts were and are heart and soul behind the project. Among these were Roy Adkins, Mrs. Flore Midkiff, Will Damron, W. F. Labor, Robert Adkins, June Messinger, Newton Midkiff and a host of others unknown to the writer.

Candidate's Page

On this page you may write what you please. It is suggested that most employers, considering you as a candidate, would like to know what sort of person you are. Therefore, you may wish to write about yourself—about experiences and ideas you have found stimulating, about your recreational interests.

My life is dominated by various forces among which are intellectual curiosity, a desire to cooperate with individuals, and an eagerness to see the people of the world exchange ideas and work together in harmony. I was born on a Virginia estate about ten miles north of Roanoke city. My inquiring mind showed itself when I was a child, for I wished to peep into every bird's nest in my father's orchard. This desire to know led me on in my books through three grades the first year that I attended school. This intellectual curiosity brought me all A's in my High School classes, sent me to New York, to Barnard, and to Columbia.

With this desire to know, I linked an eagerness to cooperate with with my classmates and instructors. My Principal at Troutville High School was anxious that his High School be represented in an Oratorical contest to be given by candidates from all the High Schools of Botetourt County. I cooperated with him, entered the contest, won the medal, and was therefore sent to represent Troutville High School at the final contest. When I entered college, money was needed to buy new Library books. I cooperated with two other girls and we gave three Reading recitals and contributed the money to the Library Fund. I was elected President of my literary society at college. The Dramatic club asked me to play the heroine's part in two Commencement plays. Whenever the opportunity presented itself, I tried to cooperate with my classmates and instructors. I would appreciate seeing the nations of the world work together.

The latest idea that has stimulated my mind is that in this age of aeroplanes, we may visit other nations over the week end. We will be able to fly to China, teach the Chinese people our beautiful English Language, and bring back to America some of the patience that they possess. During spring vacation, we may fly to the foot of the pyramids, then farther south and teach the African negro some of our Christian ideas, and bring back to America some of his sense of humour.

To Whom It May Concern:

It gives me pleasure to state that Inez Katharine Kinzie was an altogether desirable member of this Club for two seasons. We found her to be an honorable high- minded young woman and a serious student.

She fitted well into community living and was well liked by her fellow students.

Very sincerely,

To Whom It May Concern:

It gives me great pleasure to recall the class work done by Miss Inez Katharine Kinzie, as a primary pupil in the Public School at Troutville, Virginia.

She ranked first of her class in Deportment and scholarship. She finished the work of the primer, first and second grades the first year she attended school. She was always beautiful and sweet to every one with whom she came in contact.

She was in every way a fine pupil.

To Whom It May Concern:

This is to certify that I had Katharine Kinzie as a pupil in the Seventh Grade for one year and that I found her a most excellent student. She made a grade of A on all subjects including Deportment. She was an earnest and conscientious worker and was cooperative in the highest degree in every phase of school life.

To Whom It May Concern:

It was my pleasure to have Miss Inez Katharine Kinzie as a student in her first year High School work. I remember her as a faithful and thorough student in all her work. Nearly all of the grades assigned her during the two semesters were 95 and above. Her application to her work has often been referred to by me as a model. If she is as good a teacher as she was a thorough and diligent student she will certainly rank high in her profession.

Miss Kinzie has always displayed the sterling qualities of character inherited from her parents and grand-parents who were above the average in integrity and moral worth. This with her educational attainments make her eminently fit to be the leader of the youth of this age.

I congratulate her upon her attainments and bespeak for her a high measure of success in her chosen profession of teaching.

This is to certify that Inez Katharine Kinzie was a pupil of mine in her Junior year in Troutville High School. Miss Kinzie was a pupil far above the average, a most excellent student, doing her work in a regular and systematic manner.

Miss Kinzie's scholastic average was 97%, her Department average 92%. She was most dependable, put herself whoel-souled into her work, was thoroughly cooperative with her teachers, and was very capable.

I feel sure that any one having need of such services as she might render, would do well to employ Miss Kinzie, and would be most pleased with her work.

I take pleasure in stating that Miss Inez Katharine Kinzie of Troutville Virginia was a student of mine at Troutville High School for two sessions. She was also a student of mine for two years at Daleville College. I found her to be a superior student in both High School and College. I have followed her academic career rather closely, while a student at Barnard College and Columbia University and it is my impression that she has made a creditable record at these institutions.

I have known Miss Kinzie and her family for seventeen years and I want to certify to her excellent character and sterling worth, and I would consider her a genuine asset to any school system.

I would be glad to answer any specific inquiry with reference to her.

To Whom It May Concern:

May I say a word in behalf of Miss Inez Katharine Kinzie whom I remember as being in my classes in Daleville College. She impressed me as being a very outstanding student and as showing special ability in English and Literature. She did an average of " A " work in a course in English Literature which I gave. This was typical of all her work in the College.

Miss Kinzie's work as a student was very commendable conscientious and prompt. I hoped then she would go on with her English work, and I am happy to learn she has her Master's Degree and has done her residence work for a Ph.D.

I am well acquainted with Miss Kinzie's family and home background. She comes from a cultured and highly respected family and she has the culture and refinement which come from a splendid home background. Miss Kinzie is prepared for large responsibilities, and I trust may receive the consideration she most assuredly deserves.

To Whom It May Concern:

I have known Miss Inez Katharine Kinzie for fifteen years, during which time I have heard only the very best with regard to her life and character. Coming from a home where the best things are always placed first, she could not but be the noble woman that she is.

Also it was my privilege to have Miss Kinzie in two classes during one year of her college days. She was an exceptionally fine student; she made grades, averaging about 90 with me even though she was carrying a very heavy program. I recall Miss Kinzie as an excellent all-round student with a special inclination for English and History, the two subjects she had with me.

In addition Miss Kinzie possesses a dignity and a personality that is far above that of the average teacher. Without these teachers cannot be made.

Dear Mr. Lambert

I enjoyed reading your letter and hearing about you, your wife and family.

After I left Milton, I taught for a year and one-half at Montgomery Preparatory School, then went back to West Virginia University and got my A.B. degree. I then married Emory Tyler, lawyer, and we have lived in Keyser since that time. He died of a heart attack four years ago.

I have three girls. Ruth, the oldest, got her law degree at the University and practiced with her father until she married.

with the "Central Technical Institute."
A last month she goes to Want-
ford, Conn.

My parents have been dead
some time. They were me. and
Mrs. J. W. Compton. I am 71 years
old. I don't remember any of
the teachers who were at Milton
when I was there, except Mr. &
Boole.

Give my regards to Mrs

Dear Mr Lambert,

Finally at last I have gotten down to answering your letter. I have been trying to locate the people named in your letter, but have to this date found no one who know of their where-abouts. I am still looking. When and if I locate them I will notify you.

I have never enjoyed a visit so much as I did with you. He are working hard in this Class from Iowa University but He are thoroughly enjoying it.

Our Festival is going to be this coming Thursday Night at 7:30 June 26. Wish you could visit us on that night. I am leaving the 28th for Florida will be back 15th will see then if I can locate these people. Thanks for writing.

Dear Mrs. Page:

No doubt you remember me as
Principal of Guyan Valley High School.
I am now trying to write a history
of the school and the teachers of
that time.

I have done a lot of detective
work to locate you and others,
and will appreciate an account of
yourself before and since that time.
I will also appreciate any informa-
tion you can give me about
other teachers, Miss Elizabeth R. Camp-
bell, Miss Teresina Marino, Mr. Baber
(Ralph R.), etc.

Miss Ethel R. Lomblyn also taught
with you, but I have her address -
Flemington, W. Va.

Lastly, I would like a small
best picture of yourself, and that
of any other teachers of that time. I
have Miss Lomblyn's. I can copy and
return them if desired, but it will
save expense if you can furnish
me a copy or copies which I will not
need to return.

Dear Mr. Lambert,

I hasten to answer your inquiry about Thelma Mae Wheeler. You are wrong, I am sure, about the dishonesty; she was a very efficient and high-type teacher. She did teach Home Ec. when she taught there for 7 or 8 years at Harvey Middle in West Hamlin.

Leila Morris

Sarah Birdick

Thelma Wheeler

we each had our own rooms.

Many, many weekends we spent at Thelma's home in Ashland, Ky.

Her address there was 1303 Maryland Court
Grayson Road
Ashland, Kentucky.

She is now Regional Director of 4-H work in several states, I believe. She lives in Murphy, North Carolina. Address her there at P.O. Box 485. I have also written her to write you. I always receive a gift from her at Xmas time.

Your long letter was very interesting.

Yes, that giant's name was Topping! I
couldn't remember to save me.

I sent you one snap on which was a }
teacher whose name I couldn't remember.
It was Ethel Tumblye whom you say you
recently heard from.

I don't remember Elizabeth Campbell. There
was a very quiet girl with ashen complexion
who had some sort of spells & who taught
Home Ec. who lived at Woodrow Sloanes.
Maybe that was Miss Campbell - I don't remember.
She was nearly asphyxiated one night there
when the wind blew out the gas stove.

Yes, ~~Thelma~~ Velma Calhoun married John Elkin
& Velma's sister Virginia married John Scott,
chemistry teacher. What do you know of
Thelma Riggs? They all lived together at
Branchland.

Incidentally, Thelma Wheeler is an
only child - she has neither sister nor brother.
I didn't know that Jimmy Midgiff
had been principal at G. K. He is
the one & only pupil I ever slapped
but I really let him have it one
class one day after which he
threw his books into his desk &
stamped out slamming the door.
I was so nervous! After that incident

he was much more cooperative and after
he graduated & went to Marshall College
in Huntington he came home for Christmas
& brought me a lovely perfume atomizer &
told me he was sorry for giving me
a bad time. I always liked Jennings
and it broke my heart to have to furnish
him but he was having a "bad day",
I guess, and I couldn't take it. What
happened to Ray Midriff? What of Dennis Ray
and his sisters?

Wasn't there a Mr. Hatten who taught
English then & who married a baby girl, a
blonde, blue-eyed Messenger girl who was in
his freshman class, I believe. After their
marriage he really dressed her up and
she sat at his desk with him; He also
had a large photograph of her on his desk.
What happened to them?

I must get to my Bookkeeping
at present I am planning to try
to Europe this fall with my brother
and his wife. My brother, an eye specialist,
will attend a Medical Conference in
Brussels, Belgium. While he does that
Mofism & I plan to do the World's Fair.
Phil has a Mercedes-Benz car

we'll tour the continent & then plan to

out return the Green Elizabeth
from Southampton. then will drive from N York
on out to Oregon. Good morning.
If I can ever find any more
pictures let send them on.

Very best regards!

I am as Selkirkland

P.S. (Don't sending picture under separate cover)

I finally located the Sumner School
picture taken in 1929. The girl whom
had was practically covered from her
body by a shawl. Her head was, I
believe, either the 10th or 14th girl counting
from the right. The picture standing
in the background paid to the hills and
watched the funeral procession from her
hiding place. Feeling right then had
door unlocked as the light was
hungry for food. I could see the night.
late of food during the night.
who believe. Cereals. I was on
who finally caught him. I was on
R.R. through Pendleton.

She was a good school teacher & her husband
thought her. They had a couple children when
herd was legible. Her husband spent all day
on a gazelle & her tearing around all night
delivered her day child too, & she refused. She
was not a good girl.

Don't suppose that I
remember the book by number. I can
recall a few of their names.

P. S. I'm sending pictures under ^{single?} separate cover. I finally located the Summer school picture taken in 1929. The girl whose head was practically severed from her body by a shot-gun blast was, I believe, was either the 10th or 11th girl counting from the right of the picture, standing. Her husband fled to the hills and watched the funeral

procession from his hiding place. Greeleys kept their door unlocked so that if he was hungry he could come in and get a bite of food during the night. I believe Cesco Isaacs was the one who finally caught him, along the R. R. tracks somewhere.

She was a grade school teacher and her husband taught too. They had a couple children when beer was legalized and her husband spent all of his pay on gasoline and beer tearing around all hours. He wanted her pay check too, and she refused. She was such a nice girl.

Before you return it, will you write the names on the back by memory? I'm surprised that I remember quite a few of the names.

Dear Mr. Lambert:

You have been a better detective than I. I almost decided to get Art Linkletter's help in finding Miss Marino and Miss Campbell. If one of these could be located, I believe that one would know where the other one is. Miss Campbell was teaching in an Indian Reservation in New Mexico the last I heard of her or perhaps it was in Arizona. Her home was in Kentucky. Miss Marino lived somewhere in Pennsylvania. I have written to Harrisburg to see whether she is teaching in the state. Ralph L. Baber's home was in Huntington, but he was at Guyan Valley for only a week or two. His mother taught a short time.

I believe Mr. Kyle Topping has been able to give you information on teachers who taught at Guyan Valley in 1929-1930. The Table below will list teachers for 1927-1928.

I believe Miss Marino had a Masters Degree from Columbia University. The rest of us had our A. B. Degrees at the time.

You will remember that Miss Benson was married to Mr. Robert M. Page in June, 1928. They have two boys and one girl. The older boy is attending Wheaton Academy, Ill. this year. You will be interested in knowing that in October, 1957 Mr. Page with one other was awarded an Honor Medal for the original development of Radar in America. Mrs. Page has been doing some substitute teaching this year.

Somewhere among my stacks of papers I have been hoping to uncover the old History of Guyan Valley High School. I know it would be a great help to you.

You were quite a brave man to have had an eye removed at your age. I sincerely hope the operation was successful without too much pain attending it.

Sincerely yours,

Ethel A. Tomblyn

~~Second Graduating Class~~

The building funds were raised by a special levy which was permitted by a special act of the Legislature of West Virginia in 1929. This legislature also by a special act, made the Sheridan District Junior High School a senior high school.

By mutual agreement in 1930, the Board of Education's of Harts Creek, Laurel Hill and Sheridan District united and then the school became known as the Guyan Valley High School. Mrs Cora Midkiff, Secretary to the Board of Education, named the School Guyan Valley High School.

The first graduating class was in 1929. The class of 7 members were:

- 1 Shirley Adkins. ✓ m
- 2 Rhoda Messinger Midkiff. ✓ *Edell Mc Clellan*
- 3 Jennings O. Midkiff. ✓ *Edell Mc Clellan*
- 4 Ray Midkiff. ✓
- 5 Maude Triplett Ray. ✓ *Ja 3-2-8611*

- 6 Dennis Roy. ✓
- 7 Glenna Roy. ✓ m. *Well Johnson*

Our present graduating class of 1953 consists of 84 students.

The completion of 3 rd wing was made available by the voters of Lincoln County by the special bond levy held in March 1952.

The present members of the Board of Education are: Sidney Atkins, president, Pat Barrett, Noah Mullens, Claude Chaney, and Howard Midkiff.

Dear Mr. Lambert:

I have looked through all my papers but failed to find that bill you were asking for, it has got misplaced some how.

The funds are very short. The High School maintenance are \$986¹¹/₁₀₀. Elementaries are \$656²⁴/₁₀₀. That is according to figures we started with. I haven't paid any of those bills you gave me at the last board meeting. you know about the funds for Teachers and New Building.

They are writing for tuition from Hamlin. I am sending you Mr. Stiles' letter he wrote, let me know what to do about it.

Very truly yours

Dear Mr. Lambert:

I am in receipt of your letter of Feb'y the 21. I am glad to hear from you again but I do not have very much information which you would like to have for your history. Some of the teachers you have mentioned in your letter were not teachers at Guyan Valley high school when I was secretary. Mr. and Mrs. John Elkins can be contacted at Ashland, Kentucky. Clarence Parsons, the crippled boy's address is; Branchland, W. Va. Miss Sarah Burdick's home address was New York, N.Y. George Messinger, Branchland, West Virginia, can give you full information in reference to Miss Lula Morris. H.H. Davidson, of Branchland will possibly know about Miss Sanford, also Mrs. Verla Donahoe, of Branchland, West Va. I do not know anything about Miss Wheeler except, I know she taught Home Economics the year I attended school or was the Sec'y

Mr. Lambert, I am going to look up some of the people who have the faculty pictures and possibly have some pictures made from the if they will not be too expensive. Nora Brumfield has the faculty group. I have seen her recently. Verla Donahoe and Myrtle Adkins have the faculty pictures. I can very likely find more pictures.

2nd page.

I am going to visit a lot of the students who attended school when I was the secretay of the school. I am going to pick up all the information I can and I will send it to you. Just as soon as I can get some spare time I am planning to visit some of the students who attended and get information about other students and visit them also and get just as many details as it is possi for me to get. I know it will be interesting trying to get details about the activities of the school which passed twenty eight or thirty years ago.

Mr. Lambert, you have a copy of the West Virginia Blue Book 1929, I guess. I left about five or six copies in the school library. I would like to get a copy of it, if I could.

I went to the "Napier Studios" in Logan, West Va. just a feww days ago and I found that it will cost about \$12.00. to about \$12.00. per dozen for small pictures from negatives or pictures. Isn't that too high?

Did you ever publish the history of Guyan Valley which you were preparing when I worked at the high school? Also I would like to get a copy of the "Lincoln "lorac" if I could find one?

I am in receipt of a letter from Ethel A. Tomblin as of this date. It is very interesting to get letters from persons I knew many years ago.

3 Page.

I have been employed by the State Road Commission and have been working all over Lincoln County. I have been driving my own car most of the time. Why can't you set a date or come up and we can visit all the people we can find in the Guyan Valley area or you might tell me when you wanted to visit your old acquaintances and I will come down and pick you up and we will put in a day or two visiting. I know it will be very interesting. It is very like ^{Def} that we could get all the information you desired and pick up other interesting things.

I will now cease writing for the present and will try to answer Miss Tomblin's letter. I am not ^a very valuable source of information as I was there only one year and I never made many inquiries in reference to the college education of the faculty and I never learned many things about the teachers generally. I just learned their names, what they taught, their addresses then and I never knew where they went and I do not know where many of them are now.

I hope you are having good health yet.

Very sincerely yours,

Aile Topping

Dear Miss Tomblyn:

I am attaching herewith a copy of a letter from Mr. F.B. Lambert himself which I imagine you will be ~~inter~~ interested in. I was very definitely surprised to hear from him as it was reported to me that he had passed on several years ago. He has been blessed with a long life. He stated one time when we were having Chapel service in the auditorium that it is not the lenth^g of life but the fullness of life that really counts I believe, Mr. Lambert has had both length and fullness of life.

You possibly will get all the information which I have about the faculty at Guyan Valley high school, from my letter to Mr. Lambert, a copy of which I am mailing you.

I have the minutes or record of all the Board meetings at the school from the time the special bill making the school a joint district high school 1929 until the County Unit began. These might be interesting. I was the first secretary then Wm Webb, H.H. Davidson ect. Just as soon as I finish this letter to you or some time to-day, I will look at those old records to see if I can find any valuable information in them.

I was elected member of the Board of education in Lincoln Co. W.Va. 1942 for a period of 4 years, then again in 1946 for a period of 6 years, a total of 10 years.

If you are interested in any of the students or need any other information, Please, let me hear from you.

Very sincerely yours,

Kyle Topping

My dear Superintendent Lambert:

Will you kindly permit me to say that I have been able in every instance to adjust myself to my new environment with little difficulty? The map indicates that Branchland is about the same distance from Huntington that Troutville is from Roanoke City. As you know the population of Roanoke is about 64,000, while that of Huntington is about 68,000. It seems that a city with a population of about 60,000 has a definite influence upon the mental habits as well as the daily life of the individuals living in the adjoining communities and towns. It appears that I am probably already in tune with the life of the people at Branchland, for I have passed about two-thirds of my life in a seemingly similar environment. While New York City with her large Libraries, Grand Operas, heaven-reaching towers and great University inspired me; on the other hand I have a very keen appreciation for the glorious beauty in nature. Virginia was most beautiful this spring with her delicate new leaves, tender blades of grass springing up over the fields, and sweet pink and white apple blossoms every where. Summer brings its special type of beauty as well as autumn and winter. Mountains and streams have a beautiful language of their own with which they speak to me. However, I am primarily interested in individuals and ideas, therefore I have always felt happy and at home in the class room. I should be able in this case to adjust myself to your High School and community and work in harmony with all with whom I come in contact.

After considering carefully my qualifications, I hope you will find that I am adequately prepared to instruct the students in English in Quyan High School, Branchland, West Virginia.

I shall appreciate an early letter from you.

Most respectfully yours,
Inez Katharine Kinzie

My dear Miss Kinzie:

At the time of the consolidation of Bridgewater and Daleville the Trustees ordered that the college credits earned at Daleville be transferred to the college records at Bridgewater. I want to advise that this has now been completed and that your credits are entered regularly in the college files at Bridgewater. If at any time in the future you should have any occasion to call for them, your inquiry should be directed to the registrar here.

This has been a rather tedious task, but I am happy to advise that these records are permanently filed in a fireproof cabinet.

With most cordial good wishes, I am

To Whom it May Concern:-

This is to certify that Inez Katharine Kinzie was graduated from the two-year Expression Course as offered by Daleville Junior College in 1917, the foundation required for graduation being three years of Academy work.

The course of study was outlined for five forty-five minute periods for thirty-six weeks for two years. The first year included English, Physical Culture, Expression, Voice Culture, Bodily Expression, Life Study, Impersonation, Sight Reading, Repertoire, Conversation and Chapel Recitals. The second year included English, Expression, Voice Culture, Literary Interpretation, Art History, Bodily Expression, Repertoire, Oratory, Extemporaneous Speaking, Bible and Hymn Reading, and Public Recitals. Miss Kinzie finished the first year's work with a grade of 92 per cent and the second year with a grade of 93 per cent, receiving her diploma in June 1917.

Respectfully submitted,

Daleville Academy

To Whom It May Concern:

I am glad to recommend Miss Kinzie.
She was an " A " student in the full two
years that I had her in Expression work.

As I remember her she has a winning
personality , a natural ability in
characterization and impersonation and
therefore a good insight into character
and a rare talent in leadership.

Moreover, she was thorough and
conscientious in her work, therefore she
would prove a valuable asset to any
institution or organization.

Inez Katharine Kinzie

I wish to explain a few points relative to my Graduate Record. Kindly note in the right hand corner near the bottom of the Record the statement, "Special Action, April 27, 1928". I had a serious case of influenza and could not regain my strength. The University Doctor advised me against taking the final examinations; therefore the University Officials met and decided to extend the time in my case. This statement in the corner of my Record refers to that meeting of the University Officials.

Please observe that H indicates credit for attendance only. In the English Graduate School, Columbia does not give a final examination at the time of the completion of each course, but requires that you retain this knowledge until you finish all courses and then the final examinations that covers the entire field is given. This requirement makes it very difficult to get a Master's Degree from Columbia University in English, for it is somewhat difficult for the student to retain this enormous amount of information over a long period of time before the examinations.

Kindly note that I have 63 semester hours of Graduate work to my Credit. The Record indicates that 60 semester hours are required for the Doctor's Degree. My Doctor's Degree as well as my Master's Degree has been delayed by this influenza-handicap. However my health is no longer precarious, but normal as my Health Certificate indicates..

My maternal grandfather had a serious case of Influenza or La Grippe when he was about my age, but fully recovered his health and preached for sixty years. Therefore I have not become discouraged but I am looking forward to a long and I hope useful life. My grandfather lived to be ninety.

You will see an abrupt break in my Graduate Record in 1925. The influenza was responsible for the delay of my degrees, as well as this break in my Graduate work.

My dear Superintendent Lambert :

Kindly note that my testimonials verify my statement that I have been capable of cooperating with my classmates, instructors, club members and individuals in general. Therefore, I see no reason for not being able to work in harmony with all those with whom I come in contact at Guyan Valley High School, Branchland, West Virginia.

Most respectfully yours,
